PROFILE

Web developer with hands-on experience in React, CSS3, Git, Node.js and other trendy techs for developing, enhancing performance and user acceptance testing. My overall goal is not to only further advance in problem-solving, but becoming a MERN and/or just Fullstack dev.

EXPERIENCE

JUNIOR FRONT-END (React.js) DEVELOPER

Tenacious (tenacious.digital) (June 2018 – present
- Develop and enhance sites sites using React, Node.js and CSS3
- Convert PSD files to specified UX and UI guidelines
- Team up with Back-end Dev during API integration

(SEO) SEARCH ENGINE OPTIMISER

Big Web Media (March 2018 – June)
- Executed online campaigns aimed at appearing on first-page of popular search engines
- Modified simple CSS and HTML5 in design, content and links as required.
- Prepared on-time and unique elevator pitches and content to: grab viewers' attention, get backlinks and high Google-ranking
- On and off-page optimization

SKILLS

- **Testing/Debugging**   **. Responsive Design (Flex; Grid)**
